Yet again the star of the show is weaving, an art with ancient origins, made up of technique, tools and symbolic gestures. On Wednesday, June 7<sup>th</sup>, 2017 at 5:30 p.m. in the conference hall at the National Archeological and Ethnographic Museum “Giovanni Antonio Sanna” of Sassari, via Roma 64, the Sardinian Museums Organization presents the scientific-educational conference held by Maria Grazia Melis, teacher of the Prehistoric era at Sassari University, presenting *Weaving and threading in the Stone Ages*.

During the session the origins, techniques, gestures, symbolic contents and traditions will all be shown, and the true nature will be strictly followed. The initiative’s goal is to keep this tradition alive and raise awareness of its existence to visitors, showing the archeological findings as per scientific and cultural discoveries.
